SL-CLIP2S-DB500S-V5
connection cable

**E⅄PRESS 5MM**
LED CONNECTION SYSTEM

MONO

PRODUCT FEATURES

» Express connection technology
» MONO connection cable with 500 mm cable length with SIRO MONO connector
» Solderless connection concept
» 2-pole round cable (black / red) 22 AWG
» suitable for 5 mm wide mono LED strips
» Connection with LED stripes by simple locking system
» Packaging unit: 5 pieces

DIMENSIONS

» Dimensions (LxBxH): .... 15 x 6.5 x 3.3 mm
» Cable lenght: .... 500 mm
» Pin Gap: .... 4,2 mm
» LED stripe width: .... 5 mm
» LED stripe thickness: .... 0.25~0.35 mm

TECHNICAL DATA

» Rated Current: .... 3 A
» AWG: .... 22 AWG
» IP 20
» Operating Temperature: .... -10 ~ 45 C

SAFETY AND INSTALLATION INSTRUCTIONS

» This product is not a toy and is not suitable for children!
» The assembly must be carried out free of tension!
» These products consist of sensitive electronic components and must not be exposed to mechanical stress.
» Do not mount the LED strips / plugs on moving parts, free from tensile and torsional forces.
» Avoid mechanical stresses such as kinking, bending or chafing!

RoHS CE

Must not be disposed of in household waste.
